

An amazing experience

I have always wanted to volunteer at an animal shelter and this summer I have done it. I volunteered at the animal shelter for a month and I liked it a lot.

I worked at the shelter on Monday and Thursday mornings because that was my only free time because the other mornings I had to help my grandparents at their shop. I walked a lot of dogs and fed many different types of animals. Sometimes I helped the vet with her work so I learnt all about good nutrition for animals. The best part is this-my parents have agreed to adopt a cat from the shelter because they see how important animals are to me. I have chosen a very beautiful kitten and it came home last Monday.

Working at the shelter has been one of my best experiences because I love animals and I enjoy a lot playing and taking care of them.
