

Christmas is for sharing.

19th December, 2017

The second term in the high school *Institut de Lliça* has just begun, and students are focusing on their progress after having studied their subjects and learnt new and important aspects throughout the 1st term. And last but not least, Christmas is just around the corner. So before going on holiday this Christmas, students of 2nd ESO A and C, 3rd ESO D and E (No-Pile), and 1st year of Baccaulatee B and D have all worked on a Christmas project.

The 2nd graders have written about what they did last Christmas and what Christmas means to them. The 3rd graders have given advice about what you should and must do this Xmas as well as what Christmas is about. And finally, the Baccaulatee students have written news reports based on Christmas characters or symbols using comic strips.

So if you want to know more about the news report, advice and description as well as what Christmas is about, you can go to the ground floor corridor and have a look at the work

So thinking about Christmas, how is this holiday celebrated in northern countries such as Denmark? Unlike in Spain in which Christmas holidays last two weeks until Epiphany (aka the Three King's Day), Christmas time in Denmark is lived in a different way.
